

## **Regulatory requirements for resident involvement**

(From the Regulatory Framework for Social Housing in England from April 2012, pages 17-19)

### **Required outcomes - Involvement and empowerment**

Registered providers shall ensure that tenants are given a wide range of opportunities to influence and be involved in:

- the formulation of their landlord's housing related policies and strategic priorities
- the making of decisions about how housing related services are delivered, including the setting of service standards
- the scrutiny of their landlord's performance and the making of recommendations to their landlord about how performance might be improved
- the management of their homes, where applicable
- the management of repair and maintenance services, such as commissioning and undertaking a range of repair tasks, as agreed with landlords, and the sharing in savings made, and agreeing local offers for service delivery

### **Specific expectations - Involvement and empowerment**

Registered providers shall support their tenants to develop and implement opportunities for involvement and empowerment, including by:

- supporting their tenants to exercise their Right to Manage or otherwise exercise housing management functions, where appropriate
- supporting the formation and activities of tenant panels or equivalent groups and responding in a constructive and timely manner to them
- the provision of timely and relevant performance information to support effective scrutiny by tenants of their landlord's performance in a form which registered providers seek to agree with their tenants. Such provision must include the publication of an annual report which should include information on repair and maintenance budgets, and
- providing support to tenants to build their capacity to be more effectively involved

Registered providers shall consult with tenants on the scope of local offers for service delivery. This shall include how performance will be monitored, reported to and scrutinised by tenants and arrangements for reviewing these on a periodic basis.

Registered providers shall consult with tenants, setting out clearly the costs and benefits of relevant options, if they are proposing to change their landlord or when proposing a significant change in their management arrangements.

Registered providers shall consult tenants at least once every three years on the best way of involving tenants in the governance and scrutiny of the organisation's housing management service.
