

Procurement and suppliers

Catalyst is one of the leading housing associations and a member of the G15 group. We own and manage over 32,000 homes across London and the home-counties, and provide housing and related services to over 65,000 customers.

We're here to make a purposeful difference, providing housing solutions and opportunities for those who can't afford a home without our help. We offer a wide range of homes for rent, part ownership or purchase. And by doing so, we build more than homes – we build communities.

We're a not-for-profit organisation. This means that any surplus we make we put back into our business of providing and maintaining affordable homes.

We use a procurement portal called Delta eSourcing, for securing contracts and issuing tenders.

Delta eSourcing is backed by [BiP Solutions](#), a leading exponent of public procurement solutions for the past 30 years.

The portal means we can issue quotations and tenders and manage responses all in one place. There are many advantages to us, as well as you as suppliers, in using a portal as it gives us access to a wider pool of contractors which will ensure improved value and competition for required work and services.

The portal is designed to be easy to use, secure and will help reduce time, effort and cost involved in procurement for both ourselves and our suppliers.

If you would like to work with us you must be registered on the portal in order to access all our tender opportunities and quotation requests. Registration is straightforward, quick and free [so register as a supplier now](#).

Please also take the time to read our [Terms and Conditions](#).
